

T.W.A.T. – WORKING CLASS LOVE (DKUT001)

A rock solid passion of **Poupee Fabrikk** flavoured sequences carrying distinct messages of crystal clear kick ass opinions, Swedish **Oi!BM** duo **T.W.A.T** proudly delivers us their first official release on **Machineries Of Joy**, the EP "**Working Class Love**" (**DKUT001**).

With an offering of no less than three exclusive tracks you will get immersed in a world of harsh vocals and massive electronics.

The main track "**Working Class**" get's a treatment by no less than three bands, in which label mates **Ionic Vision** and **Darkmen** each deliver their opinion on what is to become a club floor filler.

A more obscure version comes from the remix hand of "**Sheriffen**", listen and get convinced yourself that **T.W.A.T.** clearly dares to colour outside the lines.

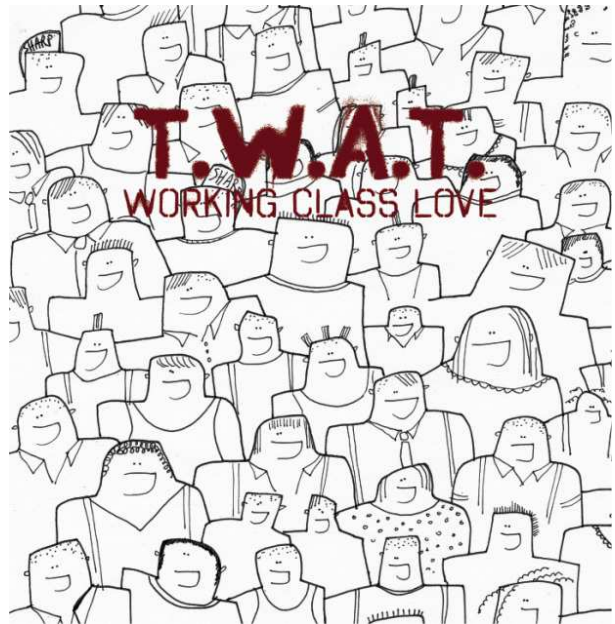

Two other tracks delivering the same atmosphere are "**United**" and the cruel sequenced "**Love Song**". The latter being remixed in an tremendous way, breathing nothing but brutal "love" and man slaughter, a heart warming riot speeding your way....

This EP is a must have and a firm warming up for the soon to come full length album '**Blood, Sweat and Teargas (KUT002)**', to be released on **Machineries Of Joy**.
