

T.W.A.T. – BLOOD, SWEAT AND TEARGAS (KUT002)

In an ever changing musical landscape, **Machineries Of Joy** attracted a refreshing new Northern EBM wind , listening to the mysterious name **T.W.A.T.**

With musical roots in early **Poupee Fabrikk** and **DAF** with lyrics focusing on strong opinionated messages, **T.W.AT.** adds another dimension to Electronic Body Music in the form of **Oi!BM**.

With a dark and bitter view on our rotten society, housed within power electronics, combining female vocals mixed with harsh vocals, this Swedish duo will keep you hooked for every second on their first official CD '**Blood, Sweat and Teargas**' (**KUT002**).

Songs like **Too rude for Radio** clearly pinpoints the so outdated negative view some have on EBM. Whereas songs like **Sverige**, **Lazy Fuckers** or **Conformity** obviously give a clear middle-finger.

On the other hand elaborated lyrics in combination with aggressive bass lines is what you as a listener will experience on tracks like **My Skin** or **Born And Raised**.

In for some fun, but always honing aggressive bitterness are on surface in songs like **Run the Cameras** and **The Barricades**.

You can be sure that every time when you take a listen to this debut album you will discover new elements. Music which is not meant for the **Ikea** people, but for the rude boys and girls amongst us.
